PROFESSIONAL SUMMARY

Junior Backend Developer with 1+ year of industry experience at Classic Tech, Nepal's leading ISP. Skilled in PHP and CodeIgniter (CI2/CI3) legacy systems with hands-on exposure to MySQL, MongoDB, and third-party messaging APIs (WhatsApp Business API, Infobip/Viber). Passionate about AI-powered backend solutions including RAG chatbots using Gemini and HuggingFace embeddings.

WORK EXPERIENCE

Junior PHP Developer

May 2025 – Present

Classic Tech Pvt. Ltd. · Kathmandu, Nepal

- Build and maintain backend services for internal portals using **PHP (CodeIgniter 2 & 3)** on large-scale legacy enterprise systems.
- Integrated **WhatsApp Business API** and **Infobip (Viber)** gateways to automate customer support and two-way messaging workflows.
- Designed and optimised relational schemas in **MySQL** and worked with **MongoDB** for document-based storage use cases.
- Developed and consumed **RESTful APIs** following MVC architecture, collaborating with frontend and mobile teams.

PROJECTS

RAG-Based Customer Support Chatbot

Personal Project

Python · Google Gemini API · HuggingFace Embeddings · Milvus

- Built a Retrieval-Augmented Generation (RAG) pipeline to answer domain-specific queries from internal documents.
- Used HuggingFace sentence-transformers for embeddings and Milvus for vector similarity search.
- Integrated Google Gemini as the generative LLM for contextually accurate, grounded responses.

TECHNICAL SKILLS

Languages:	PHP, Python, SQL, JavaScript (basic)
Frameworks:	CodeIgniter 2 & 3 (Legacy Systems)
Databases:	MySQL, MongoDB
APIs & Messaging:	WhatsApp Business API, Infobip (Viber), RESTful APIs
AI / ML:	RAG Pipelines, HuggingFace Embeddings, Google Gemini API, Milvus
Tools:	Git, GitHub, Postman, MVC Architecture, Agile/Scrum

EDUCATION

Bachelor of Information Technology (BIT)

Graduated 2026

Lincoln University College · Malaysia | CGPA: 3.87 / 4.00
